Dear Mr. and Mrs. Price:

Re: Surface Water Application No. S 2-28958

We acknowledge receipt of your affidavit of publication of notice in connection with the above-numbered application.

The water codes require that no action be taken toward issuance of a permit earlier than thirty (30) days after the last date of publication. This period of time is allowed for filing any protests or objections. In some cases it is also necessary for us to await approval of the Departments of Fisheries and Wildlife before issuing permits.

A site investigation will be made by this office before we issue a permit decision. In light of our water right backlog, we estimate it will be about 18 months after receipt of your application before we are able to conduct the site investigation.

Sincerely,

A handwritten signature in cursive script that reads "Sheri Fox".

DEPARTMENT OF WILDLIFE  
S W REGIONAL OFFICE

The Departments of Wildlife and Fisheries recently defined specific criteria for the review and conditioning of Water Rights. Per the 10/4/93 WDF/WDW memo please apply the following:

1)  
Any single family domestic applications should be limited to .01 cfs even if the application requests a greater amount. Please don't send any future applications for single family domestic applications. Apply standardized criteria for minimum flow, screening, etc. Deny any single family domestic applications where a less impacting alternative or reasonable alternative source is available. Deny where instream flows are a known concern. This applies to the following permit numbers:

S2-28725	S2-28787	S2-28819	S2-28916
S2-28749	S2-28804	S2-28820	S2-28935
S2-28751	S2-28807	S2-28827	S2-28938
S2-28762	S2-28810	S2-28883	S2-28958
S2-28777	S2-28814	S2-28885	S2-28960
S2-28783	S2-28817	S2-28912	

2)  
For drainages with an existing instream resource protection plan, condition using established instream flows. Require screening where applicable. Adopt administrative closures and instream flows for drainages where WDF/WDW have made instream flow recommendations based on fish resource needs or where instream flow studies have been made, but not implemented into WAC. Apply these modifications administratively until they are adopted into rule. This applies to the following permit numbers:

Dear Mr. and Mrs. Price:

Re: Surface Water Application No. S 2-28958

Your application for the appropriation of water has been assigned the above referenced number. Please refer to this number in future correspondence.

Enclosed is a notice of your application which must be published once a week for two consecutive weeks in a qualified legal newspaper of general circulation in the County or Counties in which the storage, diversion, and use is to be made and in other newspapers as directed. A list of these newspapers in your county is enclosed.

The applicant is responsible for the payment of the publication. Please read the notice carefully to make sure it is correct. Should you find an error, please return the notice to our office for correction.

You should mail or deliver the enclosed notice to a newspaper regarding publication as soon as possible. When you receive the affidavit of publication form the newspaper, please forward it to this office promptly. Further processing of the application will not be made until the affidavit is returned.

A site investigation will be made by this office before we issue a permit decision. In light of our water right backlog, we estimate it will be about 18 months after receipt of your application before we are able to conduct the site investigation.

Sincerely,

A handwritten signature in cursive script that reads "Sheri Fox".
